Camtica 6 provides a professional screen capture tool. The software allows you to take screen recordings, captures or snapshots of your desktop as you complete tasks, record presentations or tutorials, and capture photos of your desktop. The easiest way to create a screencast is to simply press a key or mouse button (in conjunction with a time stamp), and Camtica captures the state of the desktop at that exact moment. A set of built-in keyboard shortcuts allow you to capture screen recordings with just one click. (Ctrl+Shift+E) You can annotate your screencast with text, shapes, or other forms to include your comments, as you complete various tasks. You can also attach files, images and graphical images to your screencast. Camtica also includes an advanced video editor that allows you to trim, cut, shorten, join, re-arrange and re-save your screencast. Camtica makes it easy to create professional-looking videos! The ability to record live videos on top of your original screencast is also a great tool to visually connect with your audience while presenting. What are you waiting for? Get Camtica now! Note: 1. The photo/text tool has been updated in version 6 of Camtica. That means that Camtica 6 won't be able to import previous Camtica versions 5.x and Camtica 5.x. You may downgrade your existing version 5.x to version 5.x. You can also upgrade your existing version 6.x to version 7.x. But you cannot downgrade your existing version 6.x to version 5.x. 2. You can create both Macintosh and Windows version of a video with Camtica. Camtica Software Review- Good! You are going to create a demo/screencast using Camtica. I am a Camtica Newbie. I like its ease of use. I like its basic use, just scroll the mouse over the mouse button and you are done. What about the price? I got it at \$59.00 on Spyware-Geek. Just the basic software I need for making screen casts. I use Screencast in combination with Camtica and the result is good. I have no suggestions on how to improve it. It is just what it should be.
